

# DE WATÈRE

CHAMPAGNE

*Les Petites*

## *Les Petites*

The Premier Cru Brut Blanc by Champagne De Watère is composed from 80 percent Pinot Noir and 20 percent Chardonnay grapes.

Its multifaceted blend of freshness and maturity manifests itself in a brilliant, translucent shade of gold. Its complex aromas include hints of cinnamon and exotic fruits.

The Champagne matures for a minimum of 45 months in old chalk caves, some of which date back to Roman times.

The Premier Cru Brut Rosé de Saignée by Champagne De Watère is made solely from Pinot Noir grapes.

Despite its bright red colour, it is completely devoid of tannins. This Champagne owes its name to the complex saignée process that enables the colour of the rosé to develop without the addition of red wine.

This Champagne is characterised by subtle notes of raspberry and blackberry with delicate flowery aromas. The Champagne matures for as long as 85 months in old chalk caves.
